

**Accessories**

**Accessories: Monteq mounting aid for centroteX**

A practical support is now available for everyone who must set up heavy clamping devices: the Monteq chuck mounting aid for the centroteX quick change-over system. With the Monteq mounting aid, alignment and handling are easy. Thanks to the spring-loaded bearing arrangement the clamping device can even be lifted by hand, the swiveling holder makes it easy to lock the clamping device in the machine-side bayonet, and with an adjustable screw the clamping device can be adjusted onto the spindle.

**Key advantages**

- Easy and safe handling of heavy clamping devices
- Short changing times thanks to quick-acting screws
- The clamping device is not suspended diagonally

**Monteq in detail**

Designation	
1 Weight transference 2 Swivel mechanism for the bayonet 3 Quick-acting bolt for clamping device adapter 4 Spring package for fine height adjustment to the spindle
